Designer insider: Eve Gravel

February 6, 2016

I had the chance to visit Eve Gravel in Montreal this week for some behind the scenes insider fun. Made in Quebec, the designer's contemporary-casual creations feature the unique look that has made the label's enviable reputation. Stylish and original, Eve Gravel's ultra-feminine collections can be found in numerous boutiques across the country as well as in their entirety via the brand's online boutique. The amazing team had a nice gift for us to take home, which was so thoughtful!
